

SCHWEIZERISCHE KOMMISSION FUER MOLEKULARBIOLOGIE

C. elegans Regional Meeting

November 6th, 2001

Friedrich Miescher Institute, Maulbeerstrasse 66, Basel.
Room 530.

Program:

14.30 Invited Speaker: **Erik Jørgensen**, University of Utah.

"Using *Drosophila* transposons to mutate the *C. elegans* genome"

15.30 Break.

15.40 **Tibor Vellai**, University of Fribourg. (Müller group)

"Evolution of the Hox Cluster in *C. elegans*"

16.00 **Jagan Srinivasan**, Max Planck Institut, Tuebingen. (Sommer group)

"Towards a genome map of *Pristionchus pacificus*"

16.30 **Randy Hofmann**, University of Zürich. (Hengartner group)

"Genetic analysis of DNA damage response pathways in *C. elegans*"

17.00 Break

17.10 **Jean-Michel Bellanger**, ISREC, Lausanne. (Gönczy group)

"*zyg-8*, a gene required for spindle positioning in the one cell stage embryo, encodes a doublecortin-related kinase that promotes microtubule assembly".

17.40 **Adrian Streit**, University of Fribourg. (Müller group)

"Test runs on the COPAS Technology Platform (Biosort). Report and discussion"

18.00 Planning of the following meeting.

18.15 Food and Discussion
