

C. elegans Regional Meeting

January 21st, 2003
Friedrich Miescher Institut, Maulbeerstrasse 66, Basel.
Room 530.

Program:

- 10.30 **Tim Schedl**, Washington University, St. Louis, USA.
"Control of the proliferation versus meiotic development decision"
- 11.30 **Marie Delattre**, Gönczy group. ISREC, Lausanne.
"*sas-1*, a gene required for centrosome duplication in one-cell stage *C. elegans* embryos"
- 12.00 **Björn Schumacher**, Gartner group, MPI Munich
"The p53 pathway in *C. elegans* "
- 12.30 Lunch at the FMI.
- 14.30 **Victor Ambros**, Dartmouth, USA.
"Small RNAs and developmental timing in animals"
- 15.30 **Andre Pires da Silva**, Sommer group. MPI Tübingen.
" Evolution of sex determination in nematodes "
- 16.00 Break
- 16.20 **Tibor Vellai**, Müller group. Fribourg.
" Multifunctional and essential roles of the autophagy-related AGO-1 and LET-512 proteins in *C. elegans* development"
- 16.40 **Amit Dutt**, Hajnal group. Zürich.
"The rhomboid homolog *rom-1* is involved in the anchor cell-independent induction of vulval cell fates"
- 17.10 **Harald Hutter**, MPI Heidelberg .
"Axon guidance in the ventral cord: The role of pioneers and extracellular cues"
- 17.40 Planning of the following meeting.
- 18.00 Food and Discussion.

The organizers

Ruth Chiquet, Fritz Müller, Alex Puoti
