

Basel Worm Meeting (BWM 2009)

March 19th, 2009

Friedrich Miescher Institute, Maulbeerstrasse 66, Basel. Room 530

13.00 Geraldine Seydoux. Department of Molecular Biology and Genetics, Johns Hopkins University School of Medicine. Baltimore, USA.

" Asymmetric segregation of proteins in the cytoplasm "

14.00 Björn Biedermann. Friedrich Miescher Institute, Basel, Switzerland.

"Mitotic quiescence maintains totipotency in the *C.elegans* germ line"

14.30 Break (20 minutes)

14.50 Jeremy Nance. Skirball Institute, NYU School of Medicine. New York. USA

"Cell polarization during early embryogenesis and organogenesis."

15.50 Christelle Gally IGBMC. Illkirch, France

" Myosin II regulation during embryonic elongation: LET-502/ROCK, MRCK-1 and PAK-1, three kinases with different roles "

16.20 Huimin Zhang IGBMC. Illkirch, France

" A tension-dependent pathway promoting fibrous organelle maturation during embryonic morphogenesis "

16.50 Jai Richard. IGBMC. Department of Cell and Developmental Biology, Strasbourg, France

" Analysis of the cellular intermediary steps involved in an epithelial-to-neuronal reprogramming event in *C. elegans*."

17.20 Lucien Rufener. Institute of Cell Biology, University of Bern and Novartis, Centre de Recherche Santé Animale, St- Aubin, Switzerland

" *Haemonchus contortus* acetylcholine receptors of the DEG-3 subfamily and their role in sensitivity to a new class of anthelmintics"

17.50 Discussion on future meetings

18.00 Dinner

The organizers

Ruth Chiquet
Alex Puoti
